

FREE Vascular Seminars

February marks a number of health observances that are related to matters of the heart: American Heart Month, Cardiac Rehabilitation Week, Cardiovascular Professional Week, and Women's Heart Day. In honor of those observances, St. James Heart and Vascular Institute is proud to announce the following free vascular seminars.

Free Vascular Seminars

Dr. Eugene Tanquilut is a St. James endovascular surgeon and has helped to develop many vascular procedures used in the treatment of peripheral artery disease (PAD). Join Dr. Tanquilut as he discusses the various treatment options that have been developed for people with vascular disease.

Tuesday, February 23, 6:30 p.m.
St. James Health and Wellness Institute
100 - 197th Place, Chicago Heights, IL

Thursday, February 25, 6:30 p.m.
